

	Course Name: Advanced Web Technology		EXPERIMENT NO. 10	
	Course Code: 20CP314P Faculty: Dr. Ketan Sabale		Branch: CSE	Semester: VI
(To be filled by Student) Submitted by: Sahil Godhani Roll no: 20BCP291				

Objective: Apply Flask framework to implement the webpage.

Experiment: Implement a webapp using Flask framework.

Q1. Write a program for following task using Flask framework:

Build a sample webapp of your choice. The webapp may contain different webpages in it (at least 4). You can use navigation bar for providing the links to those pages. The user will click on various tags on the navigation bar and the particular template will be provided to the user. (Attach Screenshots)
